

# Learning-as-a-Service Subscription

Comprehensive training platform accessible digitally 24/7

## Business context

Organizations across the globe share a similar challenge when adopting software platforms: how to train their teams efficiently and effectively with the skills they need to achieve successful business outcomes. This challenge is further compounded when team members have varying competencies, time constraints and working in different locations. In addition, it is also important for users to continuously update and develop the skills and knowledge to extract the most out of the solution feature and functions to improve the return of investment.

## BlueYonder Learning-as-a-Service Subscription overview

The BlueYonder Learning-as-a-Service Subscription is a comprehensive digital learning solution with the latest training content developed exclusively by BlueYonder certified experts. The subscription provides immediate access to training resources to help your organization and teams gain knowledge, skills and validation for continued success. Users can learn at their own pace from anywhere and re-watch many of the recorded instructional videos, e-learning courses or instructional presentations during the subscription period.

The subscription provides support throughout the user's journey – starting with Strategic Concepts training content which serves as an introduction to the product; all the way to supporting on-going lifelong learning with a repository of guides and different training resources which is perfect as a job aid when you need answers fast.

## Subscription offerings

Subscriptions are available for various Blue Yonder solutions and access to each subscription channel provides one year of unlimited access to a rich learning ecosystem. Course content is updated with each product release to ensure that users always leverage the latest features. Channels currently available include:

- Category Management
- Luminate
- Warehouse Management
- Transportation Manager
- Enterprise Supply Planning
- Demand
- Fulfillment

Review our entire course catalog of Learning-as-a-Service Subscriptions [here](#).

## Get started on Subscriptions today!

Your success starts on the first day of your subscription. Our Education Services team will support new users through the onboarding process.

We will help:

- Register all your designated team members on to the subscription channel
- Provide onboarding information to help new registrants navigate the platform
- Answer questions and offer best practices and helpful tips for getting the most out of the subscription

After your team members are onboarded, users can interact with fellow users and experts on community forums to collaborate to exchange best practices and learn more.

### Try it now
