

Transparency Report – Blue Yonder, Inc.

Blue Yonder, Inc. and its affiliates globally (together, “Blue Yonder”) takes data privacy seriously and we continuously invest significant resources to ensure that our core products and services are compliant with applicable data privacy laws and that wider data privacy risks are effectively managed.

This includes our commitment to provide full transparency about our privacy practices. We obviously cannot exclude that we do receive disclosure requests, for example, from governments or law enforcement agencies for customers’ personal data. But we do not disclose personal data without having done an intensive and diligent review of a request. It is our policy to confirm the main details of the request, including the identity of the requester, to document all disclosure requests and review those with qualified legal support and then decide whether a request should be approved or rejected.

We report, to the extent permitted by law, on an annual basis the total number of requests we have received from Law Enforcement agencies by country, the number of requests where customer personal data has been disclosed and the number of requests we have rejected (either no data found, or legal requirements were not fulfilled).

Report for the period: January 2022 to December 2022

Country	Number of disclosure requests received	Number of cases Customer Data disclosed	Number of cases disclosure of Customer Data rejected
	0
